Here every woman can discover, by compar ing her own symptoms with those described, the nature, character, causes of, and the prope emedies for, her complaints.

The wife about becoming a mother, has often need of instruction and advice of the utmost im portance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such instruction and advice and also explain many symptoms which otherwise would occasion anxiety or alarm, as all the neculiarities incident to her situation are des-

DYSPEPSIA AND INDIGESTION.—These great scourges of our people cannot be too well understood, or the means of adverting or curing them too highly appreciated. The person who discovers any means of cure or alleviation, confers a benefit upon his fellows, and is deserving of honor. This desirable consummation has been achieved, and not only may dyspepsia be cured, but it may be prevented, by the use of "Hoofland's German Bitters," prepared by Dr. C. M. The Texts Lentox, published at Weedsteck, Va., said, Jan. 10th, 1800: "A Great Medicine: We have suiformly refrained from recommending to the public any of the various patent medicines of the day, unless thoroughly conviged of their value. Among those we consider worthy of notice, is the German Bitters, invented by Dr. Hoofand, and prepared by Dr. Jackson, in Philadelphia. One instance, in particular, in which the superior virtues of this medicine have been tested, has fallen under our observation.— a During the last suigner, as on of Mr. Abram Cratifi, of this county, was very seriously at

eted with Liver Complaint, and offer trying in vain various remedies, he purchased a bottle of the Bitters, and after using it, was so much re-lieved of his distressing malady, that he precor-id another bottle, and is now restored entirely
